GROUP

WORLD PREMIERE: 28 METERS-STRAIGHT-BOOM WITH A TELESCOPIC JIB

The New Telescopic Platform H28 TJ+ (HB86 TJ+)

Haulotte Group, the global manufacturer specializing in equipment that lifts people and material lifting equipment, has used its expertise to respond to customer needs with the launch of the innovative Telescopic Big Boom H28 TJ+ (HB86 TJ+)

A reputation you can trust

➤ **Technology based on a historical expertise**

HAULOTTE Group was created from the merger of two industrial companies with recognized expertise in their market: Pinguely and Haulotte respectively established in 1881 and 1924. Throughout their history, the companies have learned to adapt their engineering skills to respond to the needs of their markets (locomotives, mechanical diggers, derricks and mobile cranes). After 120 years of innovation, creativity and imagination, Haulotte Group became a benchmark in the people and material lifting equipment markets.

➤ **Expertise in the Aerial work platforms business**

Models are designed and developed in-house, in order to meet customers' needs and to ensure their total satisfaction.

Innovation

Additional 'flexibility'

The new Big Boom H28 TJ+ (HB86 TJ+) has a telescopic jib which offers a 5 m additional reach (16 ft 5 in) to work in the most challenging working environments

➤ **A significant increase in productivity**

In every respect, the new big boom H28 TJ+ (HB86TJ+) makes your work easier and allows you to operate in a wider range of working environments

- + With an outreach of 23 m (75 ft 6 in)
- + With simultaneous movements
- + With an 2.44 m platform (8 ft)
- + With the capacity to lift rapidly heavy loads (Up to 350 kg – 772 lb).
- + With a 5 m (16 ft 5 in) telescopic jib with proportional controls that allows to reach the most inaccessible worksites.

➤ **Established operator comfort**

Thanks to its proportional movements and its self-leveling system, the operator has maximum working comfort.

The boom and the jib, with its octagonal cross section in high elastic modulus steel, are exceptionally rigid, providing greater stability to the H28 TJ+ (HB86 TJ+) for improved operator comfort.

The big boom H28 TJ+ (HB86 TJ+) benefits from the new generational control panel used in the H43TPX (HB135JRT)

➤ **A wide range of working environments**

The new big boom H28 TJ+ (HB86 TJ+) has a narrow fixed-width frame, an oscillating axle and a differential wheel lock to allow for operation in a wide range of areas.

Come and discover the new H28 TJ+ (HB86 TJ+) at the worldwide inauguration at the Conexpo exhibition from Las Vegas – booth G- 236

Offering a maximum safety level, the big boom H28 TJ+ (HB86 TJ+) responds to the demands of the working regulations (EN 280, ANSI, CSA, AS....)
